

# 911

## TIMELESS MACHINE

Dreams have the power to change the world. And especially the world of sports cars. With the 356, Ferry Porsche brought his own personal dream to the road, and the 911 led him into the future. His vision? To build a sports car of the highest standards of performance and everyday usability. Porsche found the recipe for success in 1963 with a 2+2 seater and powerful horizontally opposed engine in the rear. And he created the unmistakable flyline that still characterises every 911 today. The current 911 generation combines the strengths of all its predecessors and drives them forward – into the future of the sports car: with timeless design and pioneering technology. All this makes the 911, a timeless machine, the 'Timeless Machine'.

**Leather interior Exclusive Manufaktur.**  
*Porsche Exclusive Manufaktur.*  
Innovative, modern and stylish – down to the very last detail. Together with the design experts from the Development Centre in Weissach, Porsche Exclusive Manufaktur has created an interior concept characterised by a perfectly coordinated interplay of colours, materials and individual finishes from Porsche Exclusive Manufaktur. The possible colour combinations are almost as unlimited as the fun you'll have driving your 911 – and the result is as individual as you are.

The newly designed two-tone interior is particularly effective in conjunction with the quilted seat centres, quilted door panels and contrasting stitching, and is further enhanced by the dashboard and door panel trim package in leather and the steering column casing in leather. The headrests with embossed Porsche Crest and the belt outlet trims in Race-Tex (for the Coupé models) lend additional individual accents. The storage compartment in the centre console is embossed with 'Porsche Exclusive Manufaktur' and completes the harmonious overall impression of this special

interior concept. As complete as your driving experience.
